Leo Tejeda

HELLO !

My name is Leo Tejeda. I am a Software Engineer from Berkeley, California who loves to build software. I appreciate high-quality design and strive to implement the latest technologies in all my projects. My work ethic is unparallel, and I genuinely care to constantly improve by adapting to new technologies. I have a passion for solving interesting problems with a special interest in transforming complication into simplicity.

EDUCATION

UDACTIY: FRONT-END WEB DEVELOPMENT NANO DEGREE JAN 2015 - DEC 2016
Mastered the skills required to become a Front-End Web Developer, and started building beautiful, responsive websites optimized for mobile and desktop performance.

HACK REACTOR : JAVASCRIPT WEB DEVELOPEMENT ·OCT 2015 - DEC 2016
Learned the basic language fundamentals of Javascript, HTML, and CSS, which helped me build a strong foundation of the skills necessary to create web applications.

JOB EXPERIENCE

FULL STACK JAVASCRIPT ENGINEER - PUMPERPAL.IO FEB 2017 - PRESENT
Full stack JavaScript Engineer with an emphasis on web-based technologies including HTML5, CSS3, and M.E.A.N Stack. I assist in designing and implementing responsive design for many platforms.

FRONT-END ENGINEER - FREELANCER MARCH 2015 - FEB 2017
Developed enterprise level web applications in M.E.A.N Stack. Used the standard suite of web technologiesincluding HTML, JavaScript, CSS, Ajax, JSON, Angualr2, MongoDB, Node.Js and Express.Js.

IT ENGINEER - FREEDOM MOTORS MARCH 2012 - MARCH 2015
Provided base level support for technical issues: hardware, software, printing, installation, word processing, email, and operating systems. Handled up to 20 support requests per day.

ACCOMPLISHMENTS

AT&T HACKATHON: FINALIST 2016

With a group of 4 individual's and in the span of 48 hours, we developed a facial recognition application called Face Match; a time card application used to clock in employees.
