Leonel TejedaJr.

Software Engineer

HELLO !

My name is Leonel Tejeda Jr. I am a Software Engineer from Berkeley, California who loves to build software. I appreciate high-quality design and strive to implement the latest technologies in all my projects. My work ethic is unparallel, and I genuinely care to constantly improve by adapting to new technologies. I have a passion for solving interesting problems with a special interest in transforming complication into simplicity.

EDUCATION

UDACTIY: FRONT-END WEB DEVELOPMENT NANO DEGREE- 2016
Mastered the skills required to become a Front-End Web Developer, and started building beautiful, responsive websites optimized for mobile and desktop performance.

HACK REACTOR : JAVASCRIPT WEB DEVELOPEMENT-2016
Learned the basic language fundamentals of Javascript, HTML, and CSS, which helped me build a strong foundation of the skills necessary to create web applications.

JOB EXPERIENCE

SOFTWARE DEVELOPER: PRIVATE CLIENT MARCH, 2015-PRESENT

Building single page fully responsive web applications with full Stack Javascript in M.E.A.N Stack; MongoDB, ExpressJs, Angular2, and NodeJS.

OPERATIONS MANAGER: FREEDOM MOTORS JAN 2003-MARCH 2015
Planned, directed, and coordinated the distribution of 60 automobiles a month to independent customers. Organized the sales distribution by establishing sales territories, quotas, and goals. Analyzed sales statistics gathered by staff to determine sales potential based on inventory and customer preferences.

ACCOMPLISHMENTS

AT&T HACKATHON: FINALIST 2016

With a group of 4 individual's and in the span of 48 hours, we developed a facial recognition application called Face Match; a time card application used to clock in employees.

PROGRAMMING FOR EVERYBODY (PYTHON): UNIVERSITY OF MICHIGAN 2015
An 11 week online Python programming course authorized by the University of Michigan.
